

Friday March 12 th , 2010	Lecture Hall IV 11:00 am - 01:30 pm	Session 55 Symposium	
---	--	-------------------------	---

Bacterial Sepsis and Vaccination Therapy: New Treatment and Prevention Paradigms

Moderators: Annaliessa Anderson, Pearl River, USA
Alan S. Cross, Baltimore, USA

- 11:00 - 11:20 **SY 455** Vaccination against Nosocomial Infections: The Need for a New Immunization Paradigm
Alan S. Cross, Baltimore, USA
- 11:20 - 11:40 **SY 456** Developing a Vaccine to Prevent Staphylococcus Aureus Disease
Ingrid Dodge, Pearl River, USA
- 11:40 - 12:00 **SY 457** Prevention of Systemic Enterococcal Infections: Experimental Vaccine Approaches (A 271)
Johannes Huebner, Freiburg, Germany
- 12:00 - 12:20 **SY 458** Prevention of GBS Disease by Monoclonal Antibodies Directed Against Antigens Identified by ANTIGENome Technology (A 272)
Martin B. Oleksiewicz, Vienna, Austria
- 12:20 - 12:40 **SY 459** Novel Approaches for an Antibiofilm S. Aureus Vaccine
Mark E. Shirtliff, Baltimore, USA
- 12:40 - 01:00 **SY 460** Pre-Clinical Evaluation of Vaccine Candidates for the Prevention of Infection by Chlamydia Trachomatis (A 273)
Jon Heinrichs, West Point, USA
