

Friday March 12 th , 2010	Lecture Hall IV 08:15 am - 10:45 am	Session 54 Symp/FreeCo	
---	--	---------------------------	---

Host Defense Mechanisms in Fungal Sepsis

Moderators: Gordon D. Brown, Aberdeen, United Kingdom
Mihai G. Netea, Nijmegen, Netherlands

- | | | |
|---------------|---------------|--|
| 08:15 - 08:35 | SY 448 | Recognition of Fungal Pathogens: C-Type Lectins and Toll-Like Receptors
Gordon D. Brown, Aberdeen, Scotland |
| 08:35 - 08:55 | SY 449 | Cross-Talk between Innate and Adaptive Immunity to Fungal Pathogens
Anna Vecchiarelli, Perugia, Italy |
| 08:55 - 09:15 | SY 450 | CARD9: A Master Regulator of Antifungal Defense
Juergen Ruland, Munich, Germany |
| 09:15 - 09:35 | SY 451 | Host Antifungal Pathways: Lessons from Patients with Fungal Infections
Mihai G. Netea, Nijmegen, Netherlands |
| 09:35 - 09:55 | SY 452 | Immunotherapy of Severe Fungal Infections
Arturo Casadevall, New York, USA |
| 10:20 - 10:32 | OR 453 | Caveolin-1 Promotes Survival in Candida Albicans Sepsis by Modulating Dectin-1 Expression and Signaling (A 269)
Tammy Ozment-Skelton, Johnson City, USA |
| 10:32 - 10:38 | OP 454 | Aging Decreases Human Leukocyte Dectin-1 Responsiveness and Co-Operativity with TLR2 (A 270)
David Williams, Johnson City, USA |
