

Friday March 12 th , 2010	Lecture Hall VI 11:00 am - 01:30 pm	Session 62 Symposium	
--	---	--------------------------------	---

Interdisciplinary Management of Obesity

A) The Disease of Obesity: Novel Insights into Adipose Tissue Biology

Moderators: Matthias Blueher, Leipzig, Germany
Hans Hauner, Freising-Weihenstephan, Germany

- | | | |
|---------------|---------------|--|
| 11:00 - 11:20 | SY 500 | Epidemiology, Risk Factors, Clinical Presentation and Prognosis
Hans Hauner, Freising-Weihenstephan, Germany |
| 11:20 - 11:40 | SY 501 | Role of Adipose Tissue Turnover in Obesity (A 420)
Kirsty Spalding, Stockholm, Sweden |
| 11:40 - 12:00 | SY 502 | Pathological Alterations of Human Adipose Tissue (A 287)
Karine Clement, Paris, France |
| 12:00 - 12:20 | SY 503 | Chronic Inflammation, Adipokines and Defense in Obesity
Harald Mangge, Graz, Austria |
| 12:20 - 12:40 | SY 504 | Role of Adipose Tissue Stress in Obesity
Assaf Rudich, Beer-Sheva, Israel |
| 12:40 - 01:00 | SY 505 | Genetics of Central Obesity and Fat Distribution
Cecilia Lindgren, Oxford, United Kingdom |

Under the Auspices of the German Obesity Society (DAG)
