

Friday March 12 th , 2010	Lecture Hall II 08:30 am - 11:30 am	Session 48 Symposium	
--	---	---------------------------------------	---

Intersections between Antimicrobial Peptides, Alarmins and DAMPS

Moderators: Joost J. Oppenheim, Frederick, USA
Johannes Roth, Muenster, Germany

- 08:30 - 08:50 **SY 407** Introduction and Current Concepts
Joost J. Oppenheim, Frederick, USA
- 08:50 - 09:10 **SY 408** HMGB1 - The Prototypical Innate Danger Signal
Marco E. Bianchi, Milan, Italy
- 09:10 - 09:30 **SY 409** S100A8/A9 as an Alarmin for States of Trauma and Disease (A 256)
Johannes Roth, Muenster, Germany
- 09:30 - 09:50 **SY 410** Advanced Glycation Endproducts and ist Precursors: Alarmins of Metabolic Danger and Beyond
Angelika Bierhaus, Heidelberg, Germany
- 09:50 - 10:10 **SY 411** Crystals and the NALP3 Inflammasome (A 257)
Eicke Latz, Bonn, Germany
- 10:10 - 10:30 **SY 412** Neutrophil Granule Proteins Alarm the Immune System (A 258)
Oliver Soehnlein, Aachen, Germany
- 10:30 - 10:50 **SY 413** Alarmins for Epithelial Defense
Jens-Michael Schroeder, Kiel, Germany
- 10:50 - 11:10 **SY 414** The Control of Antimicrobial Peptide/Alarmin Expression - New Treatment Options for Chronic Inflammatory Skin Diseases?
Juergen Schaubert, Munich, Germany
