

Saturday March 13 th , 2010	Lecture Hall V 11:30 am - 02:00 pm	Session 81 Symposium	
--	--	--------------------------------	---

Monitoring the Immunoinflammatory Response in Critical Illness: My Favourite Biomarker(s)/Analytical Advices for Clinical Use - Part A

Moderators: Jean-Marc Cavaillon, Paris, France
Mitchell M. Levy, Providence, USA

- 11:30 - 11:50 **SY 688** Biomarkers: Diagnosis and Risk Assessment in Sepsis
Mitchell M. Levy, Providence, USA
- 11:50 - 12:10 **SY 689** Assessment of Monocytic Function
Jean-Marc Cavaillon, Paris, France
- 12:10 - 12:30 **SY 690** Assessment of T-Cell Function (A 373)
Guillaume Monneret, Lyon, France
- 12:30 - 12:50 **SY 692** Cathepsin X and PMN Elastase as Potential Inflammatory Markers (A 374)
Dorit Naegler, Munich, Germany
- 12:50 - 01:10 **SY 693** The Endotoxin Activity Assay (EAA™) (A 417)
Hans Guenther Wahl, Luedenscheid, Germany
- 01:10 - 01:30 **SY 694** Sepsis Monitoring Using LBP and Other Markers
Martijn van Griensven, Vienna, Austria

Under the Auspices and in Cooperation with the German Society of Clinical Chemistry and Laboratory Medicine (DGKL)

Supported with an Unrestricted Educational Grant of SIEMENS HEALTHCARE DIAGNOSTICS

Saturday March 13 th , 2010	Lecture Hall V 02:15 pm - 05:00 pm	Session 82 Symposium	
---	---------------------------------------	-------------------------	---

Monitoring the Immunoinflammatory Response in Critical Illness: My Favourite Biomarker(s)/Analytical Advices for Clinical Use - Part B

Moderators: Dietmar Fuchs, Innsbruck, Austria
Gerd Schmitz, Regensburg, Germany

02:15 - 02:35	SY 695 Cytometric Profiling to Monitor Inflammatory Responses in a Broader Context Andreas Gruetzkau, Berlin, Germany
02:35 - 02:55	SY 696 Neopterin to Predict Outcome in Patients with Trauma and Sepsis (A 375) Dietmar Fuchs, Innsbruck, Austria
02:55 - 03:15	SY 697 Neutrophil Gelatinase Associated Lipocalin (NGAL) Lars Otto Utenthal, Gentofte, Denmark
03:15 - 03:35	SY 698 HMGB1 (A 376) Haichao Wang, Manhasset, USA
03:35 - 03:55	SY 699 MIF is a Late Mediator and Marker of Poor Prognosis of Sepsis (A 282) Yousef Al-Abed, Manhasset, USA
03:55 - 04:15	SY 700 RAGE and Glycation End Products Angelika Bierhaus, Heidelberg, Germany
04:15 - 04:35	SY 701 Lipidomic Biomarkers for the Assessment of Inflammatory Disease Gerd Schmitz, Regensburg, Germany
04:35 - 04:55	SY 702 Cholesterol and Apolipoproteins Peter Fraunberger, Feldkirch, Austria

Under the Auspices and in Cooperation with the German Society of Clinical Chemistry and Laboratory Medicine (DGKL)

Supported with an Unrestricted Educational Grant of SIEMENS HEALTHCARE DIAGNOSTICS
