

Friday March 12 <sup>th</sup> , 2010	Poster Area 01:00 pm - 02:30 pm	Session 72 Poster III	
---	------------------------------------	--------------------------	---

## Cytokines, Neuroregulation of Inflammation, Wound Healing, Fungal Infections, Pediatric Sepsis, Trauma, Critical Care & Outcome Prediction, Immunomodulation, Surgical Infection

**Moderators:** Rena Feinman, Newark, USA  
Stefan Huber-Wagner, Munich, Germany

**P 566** The Release of Intracellular IL-1 alpha Mediates the Recruitment of Infiltrating Myeloid Cells to the Site of Necrosis (A 305)

Peleg Rider, Beer-Sheva, Israel

**P 567** Type I IFNs Drive TNF-Induced Lethal Shock (A 306)

Claude Libert, Ghent, Belgium

**P 568** First Functional Characterization of a New MIF Family Member as a Mediator of Sepsis (A 307)

Melanie Merk, New Haven, USA

**P 569** Tissue Fluid Cytokines - A Neglected Source of Damaged Tissue Healing Regulators (A 308)

Marzanna Zaleska, Warsaw, Poland

**P 570** Resistance of SPRET/Ei Mice to TNF-Induced Lethal Shock (A 309)

Claude Libert, Ghent, Belgium

**P 571** Link between MMP-7 and IL-1 $\beta$  Release in Endotoxemia (A 310)

Roosmarijn Vandenbroucke, Genth, Belgium

**P 572** Increased Levels of Interleukin 10 in Serum of Patients with Sepsis Syndrome are Associated with Altered Homing Properties of Blood Myeloid Dendritic Cells (A 311)

Vito Cicinnati, Essen, Germany

Participants

<b>Friday</b> <b>March 12<sup>th</sup>, 2010</b>	<b>Poster Area</b> <b>01:00 pm - 02:30 pm</b>	<b>Session 72</b> <b>Poster III</b>	
---	--	--	---

- P 573** Lipopolysaccharide (LPS) Affects the Electrophysiologic Response to Acid Stimulation in Rat Dorsal Root Ganglion (DRG) Neurons with Renal Afferents and Sensitizes TRPV1-Mediated CGRP Release (A 312)  
Tilman Ditting, Erlangen, Germany
- P 574** Interactive Superabsorbing Bandage in Complex Treatment of Purulent Wounds in Patients with Disturbed Blood Flow due to Artery Deformity and Collateral Blood Flow of Neuroischemic Form of Diabetic Foot Syndrome (DFS) (A 313)  
Igor Kondrus, Ryazan, Russia
- P 575** Use of Modern Multifunctional Dressing Materials when Closing Skin Defects in Patients with Puronecrotic Forms of Diabetic Foot Syndrome (DFS) (A 314)  
Igor Kondrus, Ryazan, Russia
- P 576** Bacterial Colonization of Tissues of Chronically Ischemic Lower Limb (A 315)  
Waldemar L. Olszewski, Warsaw, Poland
- P 577** Blue Light Therapy by LED Improves Wound Healing by Enhancing Neoangiogenesis and Tissue Perfusion (A 316)  
Peter Dungal, Vienna, Austria
- P 578** Expression of Basement Membrane Components Laminin-5 and Type IV Collagen in Epidermal Wound in Severe Sepsis and Septic Shock in Humans (A 317)  
Marjo Koskela, Oulu, Finland
- P 579** Evaluation of a Next-Generation Sprayable Adhesion Barrier to Prevent Postoperative Abdominal Adhesions (A 318)  
Nicolo Tamini, Monza, Italy

<b>Friday</b> March 12 <sup>th</sup> , 2010	<b>Poster Area</b> 01:00 pm - 02:30 pm	<b>Session 72</b> Poster III	
--	---	---------------------------------	---

- P 580** Ceruloplasmin Oxidase Activity in Plasma from Burn and Non-Burn Trauma Patients (A 319)  
Michael Dubick, San Antonio, USA
- P 581** Vaccination and Antibiotic Management of Post-Splenectomy Patients in the Netherlands (A 320)  
Jolanda Lammers, Amsterdam, Netherlands
- P 582** Status on Drug Use Patterns of Arthritis in Bangladesh: A Survey on Patients in Shaheed Ziaur Rahman Medical College and Hospital of Bogra District (A 321)  
Md. Ariful Haque Mollik, Dhaka, Bangladesh
- P 583** Acute Prognosis of Critically Ill Surgical Patients: The Impact of Prolonged Invasive Organ Support Therapy (A 322)  
Christian P. Schneider, Munich, Germany
- P 584** Cytokine Response in Severe Sepsis - Predicting and Modelling the Course of Illness (A 323)  
Jan Malaska, Brno, Czech Republic
- P 585** Immunological and Clinical Biochemical Factors for Survival Prediction of Patients with Sepsis Syndrome (A 324)  
Vito Cicinnati, Essen, Germany
- P 586** Evaluation of Reactive Oxygen Species and Nitric Oxide in Peripheral Blood Monocytes and Neutrophils from Septic Patients Admitted at Admission and after Seven Days of Follow Up (A 325)  
Reinaldo Salomao, Sao Paulo, Brasil
- P 587** Serum Protein Expression Patterns in Multiple Injured Patients are Associated with Extent of Multiple Organ Failure and Outcome (A 326)  
Christian Suren, Munich, Germany

<b>Friday</b> <b>March 12<sup>th</sup>, 2010</b>	<b>Poster Area</b> <b>01:00 pm - 02:30 pm</b>	<b>Session 72</b> <b>Poster III</b>	
---	--	--	---

**P 588** Circulating Angiopoietin-2 Correlates with Distant Organ Injury and Outcome in Patients with Primary Acute Liver Failure (A 327)

Alexander Lukasz, Hannover, Germany

**P 589** Prognostic Value Analysis of Time Dependent Variables when Longitudinal Sampling is Not Possible: Example from an Experimental Model of Sepsis (A 328)

Nikolaos Memos, Athens, Greece

**P 590** Early Modulated mRNA Expression of Endotoxin Tolerance Genes is Observed at the Onset of Septic Shock (A 329)

Marie-Angelique Cazalis, Lyon, France

**P 591** Relevance of Transforming Growth Factor- $\beta$ 1, Interleukin-8, and Tumor Necrosis Factor- $\alpha$  Polymorphisms in Patients with Chronic Pancreatitis (A 330)

Gyula Farkas, Szeged, Hungary

**P 592** Intravenous Administration of Freeze-Dried Sulphonated Immunoglobulin Increases Serum Levels of IGF-I and Improves Organ Failures in Patients with Severe Sepsis (A 332)

Yoshizumi Deguchi, Tokyo, Japan

**P 593** Th1/Th2-Type Shift after Abdominal Trauma in Plasma of Multiple Injured Patients (A 334)

Oleg Heizmann, Basel, Switzerland

**P 594** Interferon-Regulatory-Factor-4 (IRF4) Prevents Postischemic Acute Renal Failure by Suppressing Cytokine and Chemokine Release in Intrarenal Immune Cells (A 335)

Saraswati Lassen, Munich, Germany

**P 595** Immunodulatory Effect of rFVIIa on the LPS-Induced Cytokine Production of Human Monocytes (A 336)

Lena Schreyer, Munich, Germany
